257 W 117th St, Apt 4E
New York, NY 10026

I want to build things that people use. I want a programming position that gives me the chance to get really good at something, to master some domain. I want to dream of electric sheep.

Education

M.S. Computer Science, May 2009
Columbia University, New York NY – 3.0 GPA

B.A. Russian, May 2004
University of Michigan, Ann Arbor MI
Minor in Painting – 3.6 GPA

| Skills | Programming | Gumption | Web Design |
|---------------|---|---|---|
| | A programmer's programmer who codes for fun and profit. | Makes things happen. Makes other people make things happen. | A background in the visual arts makes for solid aesthetics and good design choices. |

Projects

Kibotzer.com
Automatically graph progress towards a goal such as weight loss, number of pushups, or hours worked. Bugs you regularly for a number and updates your graph.
PHP, CSS, Perl.

Timepie
Tracks how you spend your time by randomly sampling from you over the course of the day.
Java, Android SDK, SQLite.

NIMS (Numbered IMs)
An Adium plugin that catches silently dropped IM messages by numbering outgoing messages and alerting if numbered incoming messages are out of order.
Objective C.

Babynamer
A poll/voting website, in Reddit style. People add items and vote up/down.
Ruby on Rails.

Taskbot
An instant message bot that acts as a group task manager.
Java, jYMSG API.

Technical

XHTML, CSS
Ruby on Rails
Javascript, PHP

Java, C++, C
Scheme
Perl

OS X
Unix/Linux
Subversion, Git

Experience

Soar Technology, Ann Arbor MI

Student intern

May - August 2006

Developed Soar rules within a large existing code base for a military simulation project.

Literacy* AmeriCorps, Seattle WA

Technology educator

2004 - 2005

Taught basic computer skills classes to low literacy level and non-native English speaking adults.

About Bee

I think of biking a century as a fun Saturday activity and tied the age-group record of 178 miles in 12 hours at Ohio's *Calvin's Challenge* bicycle race in 2006. I've also been known to climb stairs competitively and hold a PR of 15:38s at Chicago's annual *Hustle Up the Hancock* – that's 104.4 stairs per minute, baby!
